SFMC - DOCUMENT FILES

DOCUMENT FILES are convenient, time-tested storage for Wills, Deeds and other documents. Light, easily removable drawers simplify handling — just remove the entire drawer and carry it to your work station for easy reference.

DOCUMENT FILE DRAWER has a “thin back” compressor follower design that allows more usable space for filing. This compressor adds three-fourths of an inch of filing space per drawer.

FINISHED END PANELS are suggested for exposed ends.

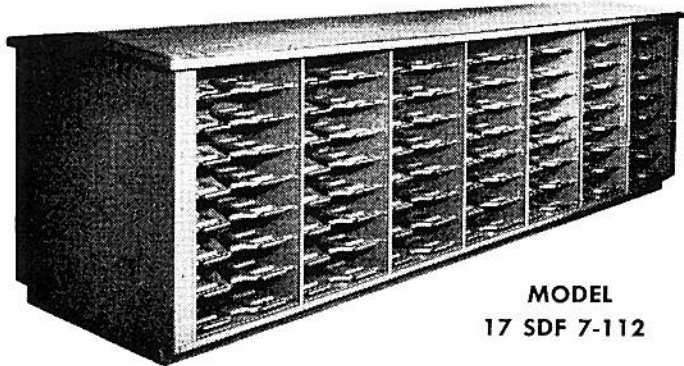

ALL UNITS ARE 14" DEEP

	<p>Model S-101</p>	<p>4 DRAWERS WIDE 6 DRAWERS HIGH</p> <p>71"H x 20-3/8"</p> <p>Approx. wt. 205-lbs.</p>		<p>Model S-103-1/2 HB or LB</p>	<p>6 DRAWERS WIDE 3 DRAWERS HIGH</p> <p>HB - 37"H x 30-3/8"</p> <p>LB - 34"H x 30-3/8"</p> <p>Approx. wt. 135-lbs.</p>
	<p>Model S-101-1/2 HB or LB</p>	<p>4 DRAWERS WIDE 3 DRAWERS HIGH</p> <p>HB - 37"H x 20-3/8"</p> <p>LB - 34"H x 20-3/8"</p> <p>Approx. wt. 120-lbs.</p>		<p>Model S-105</p>	<p>8 DRAWERS WIDE 6 DRAWERS HIGH</p> <p>71"H x 40-3/4"</p> <p>Approx. wt. 400-lbs.</p>
	<p>Model S-103</p>	<p>6 DRAWERS WIDE 6 DRAWERS HIGH</p> <p>71"H x 30-3/8"</p> <p>Approx. wt. 280-lbs.</p>		<p>Model S-105-1/2 HB or LB</p>	<p>8 DRAWERS WIDE 3 DRAWERS HIGH</p> <p>HB - 37"H x 40-3/4"</p> <p>LB - 34"H x 40-3/4"</p> <p>Approx. wt. 230-lbs.</p>

Available in a Variety of Colors and with Stainless Steel Trim. All Drawers are 4-1/2" wide, 10-1/8" high, 12" deep. Half units are also available with a thin base for stacking.

ROLLER SHELF DESKS

**MODEL
17 SDF 7-112**

ROLLER SHELF DESKS

Roller shelf desks are often the most practical answer for additional storage and work space in any county office. **Steel Fixture** makes a specialty of these units and takes pride in offering what is probably the most complete standard line of Roller Shelf desks in the world.

ROLLER SHELF DESKS ARE OF VARIOUS STYLES:

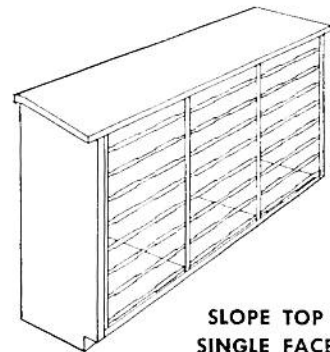

Single Face — This means that books can be inserted from one side only. It is usually used against a wall. Since the wall acts as a back to the desk, finished backs are furnished only on request and at additional cost. The counter top overhangs at the rear of the case is 1-1/2" so the top will be flush against a wall even if there is a mop board.

Double Face — These units normally are free standing with access from both sides. Each side of the desk has openings for record books. Because of their double width they offer a large desk-top work area.

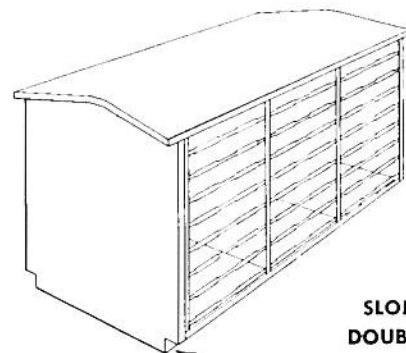

Flat Top — Is the term used to indicate that the desk top is flat.

Slope Top — Has reference to shaped desk tops that slope upward at a rate of two inches in 20", highest point 44". This holds the back of the book up at a slight angle offering a more convenient reading and working position. The slope top is undoubtedly the most popular model.

Double Face Compact — The double face flat top compact desk is designed to serve in areas where space is at a premium. The standard depth case (for standard books) width is approximately 30-3/4", the extra depth (for photo copy binders) is approximately 38-3/4" wide. Compact desk prices are the same as full width units. (Available in flat top only.)

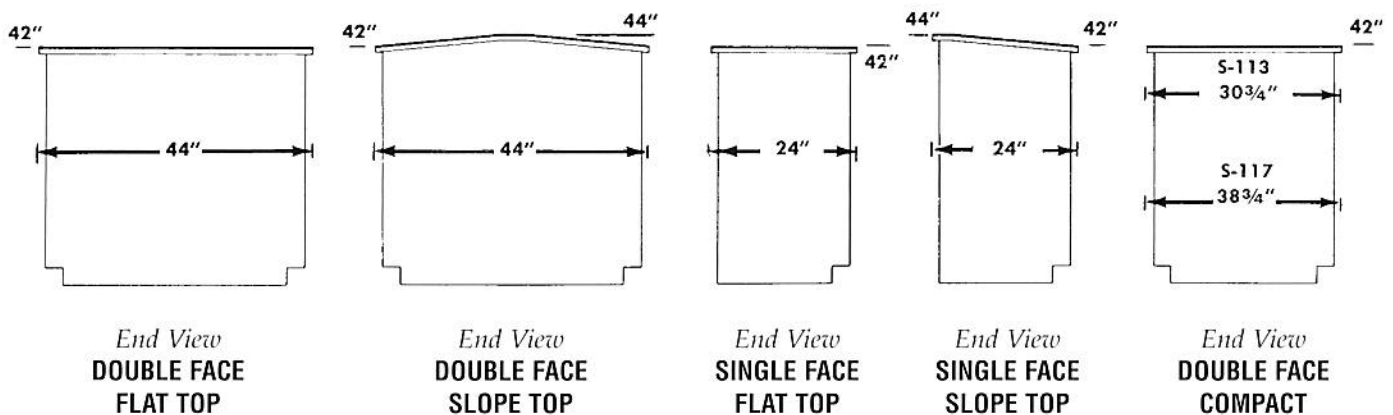

**SLOPE TOP
SINGLE FACE**

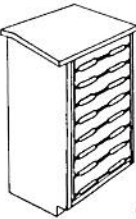

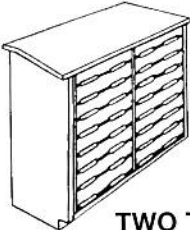

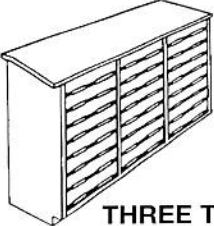

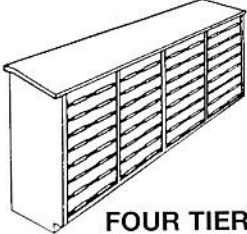

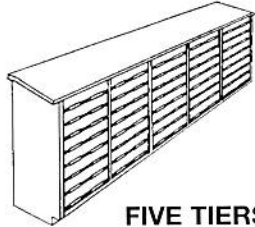

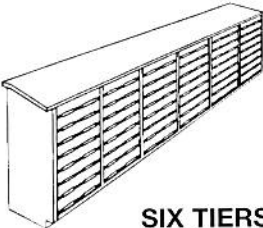

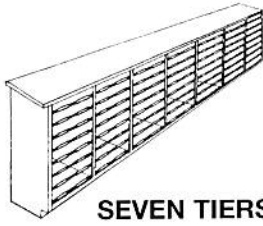

**SLOPE TOP
DOUBLE FACE**

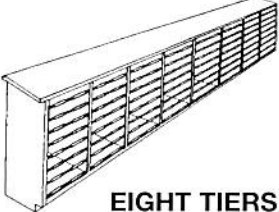

Toe Space is standard
on all Roller Shelf Desks
